2 手動インポート

The image shows a sequence of three screenshots illustrating the manual import process. The first screenshot shows a menu with options: 'Import from ADI File', 'Export All to ADI File', 'Import from LoTW', and 'Export All to LoTW'. A red arrow points from the 'Import from LoTW' option to the second screenshot. The second screenshot shows a dialog box titled 'Import From Logbook of the World' with a close button (X) in the top right. It contains the text: 'Use this page to retrieve records and confirmations from your Logbook of the World account.' Below this is a prompt: 'Please enter your Logbook of The World Password:' followed by a text input field containing the word 'Password'. A red box highlights this input field. Below the input field is a tip: 'Tip - This is the password you would use to login at <https://lotw.arrl.org>, it may be different from the password used for your certificate when exporting to LoTW.' Below the tip is a section titled 'What do you want to import:' with three radio button options: 'Import new and/or updated records (recommended)' (which is selected), 'Import all records (including previously imported)', and 'Import records from a specific date range (including previously imported)'. A red box highlights these options. At the bottom right of the dialog are two buttons: 'Import from LoTW' (highlighted with a red box) and 'Cancel'. The third screenshot shows a user profile page for 'Book # 118709' with 'Refresh' and 'Settings' buttons at the top. Below the book number are two icons: a left arrow and a right arrow, and a gear icon. Red lines connect these icons to two red-bordered boxes at the bottom: 'インポート' (Import) and '画面表示フォーマット' (Screen Display Format).
